

Card Trick Ornaments

I made these card trick ornaments to give to our grandson. I had given him the quilt for HS graduation.

These were about 3 inches square when finished. Could be $\frac{1}{2}$ inch larger.
I used 1-1/16 inch squares for the cards. Could just use 1 inch.

1. Cut a square of fabric for the background.
2. Iron fusible web on the card fabrics before cutting the cards. Arrange them on the background fabric (overlap them). Iron them in place.
3. Cut a piece of scrap fabric and a piece of batting the size of the square. Layer them together and free-motion quilt them.
4. Cut fabric for the back the size of the square. Cut a 6 inch ribbon for each.
5. Pin ribbon in place. Pin right sides of the quilted top and back together.
6. Sew with 1/4 inch seam, slightly rounding corners all four corners (they'll look better) and leaving an opening at the bottom to turn right side out.
7. Turn right side out. Stuff with loose fiberfill. Hand stitch the opening closed.
