

# Moroccan Stars Tablerunner

48" x 24" with a 2" inner border and 4" outer border

This pattern uses a 2 1/2" template. If you use a larger template you will need more yardage.

## You will need:

1. **2 1/2" hard plastic template** - Omnigrid makes a 2 1/2" square  
You can order a 2 1/2" template from me for \$4.50
2. Ruler with a 30 degree angle
3. Small or mini cutting mat - Rotary cutter
4. Hand sewing needles and thread
5. Sewing machine
6. Scissors and general quilting tools

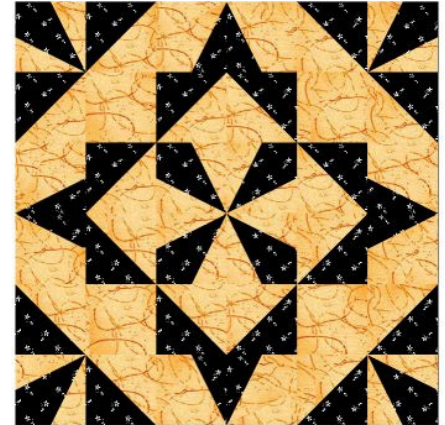

## Yardage:

1 yd Black                      1 1/2 yd backing fabric  
1 yd Gold                      1 1/2 yd binding  
1/4<sup>th</sup> yd for inner border  
1/2 yd for outer border

## Cutting Borders / Binding

Inner border cut 2 long sides - 2 1/2" x 36 1/2"  
Inner border cut 2 short sides - 2 1/2" x 17 1/2"  
Outer border long side - 4 1/2" x 48 1/2"  
Outer border short side - 4 1/2" x 24 1/2"  
Binding - 1 1/2" x 150

## Quilt Block

## Cutting Directions:

### Black -

**1 strip = 2.5" x wof(42")**

**1 strip = 2.5" x 14"**

Sub cut 12 rectangles - 2 1/2" x 4 1/4"

Sub cut - top left corner to bottom rt corner

**1 Strip = 2.5" x wof**

**Strip = 2.5" x 8"**

Sub cut 12 rectangles- 2 1/2" x 3 3/4"

Sub cut 6 - top left to bottom rt

Sub cut 6 - top rt to bottom left

**2 strips = 2.5" x wof**

Refer to HST directions

**1 strip = 2.5" x 21"**

Refer to HST directions

### Gold -

**1 strip = 2.5" x wof(42")**

**1 strip = 2.5" x 14"**

Sub cut 12 rectangles - 2 1/2" x 4 1/4"

Sub cut - top left corner to bottom rt corner

**1 Strip = 2.5" x wof**

**1 Strip = 2.5" x 8"**

Sub cut 12 rectangles- 2 1/2" x 3 3/4"

Sub cut 6 - top left to bottom rt

Sub cut 6 - top rt to bottom left

**2 strips = 2.5" x wof**

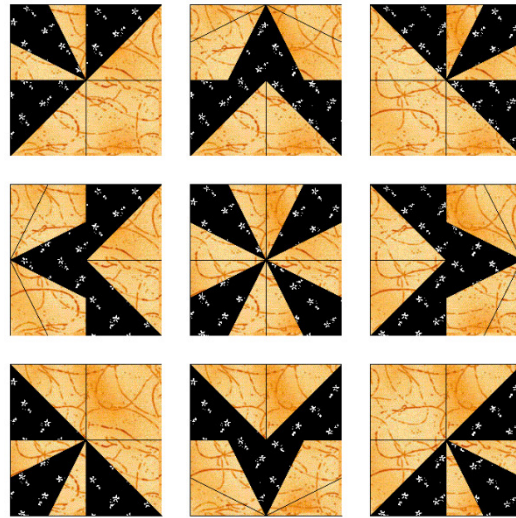

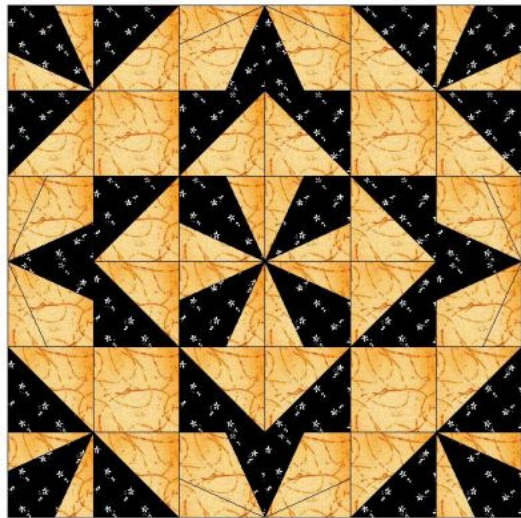

Refer to HST directions

**1 strip = 2.5" x 21"**

Refer to HST directions

**1 strip = 2.5" x 28"**

Sub cut into 2 1/2" squares

Middle

Above left here you can see the BOM quilt block. On the right is the layout showing you how all of the blocks lay in the layout.

Make sure you have all the colors in the right position and you have the blocks turned the right direction.

\*\*\*\*\*

I like to break the quilt block into 4 patches. Or you can sew the blocks into rows then sew the rows together.

**1<sup>st</sup> step:**

Sew all 4 of the corner 4 Patches

**2<sup>nd</sup> step**

Sew all 4 of the Middle 4 patches

**3<sup>rd</sup> step**

Sew the center 4 patch

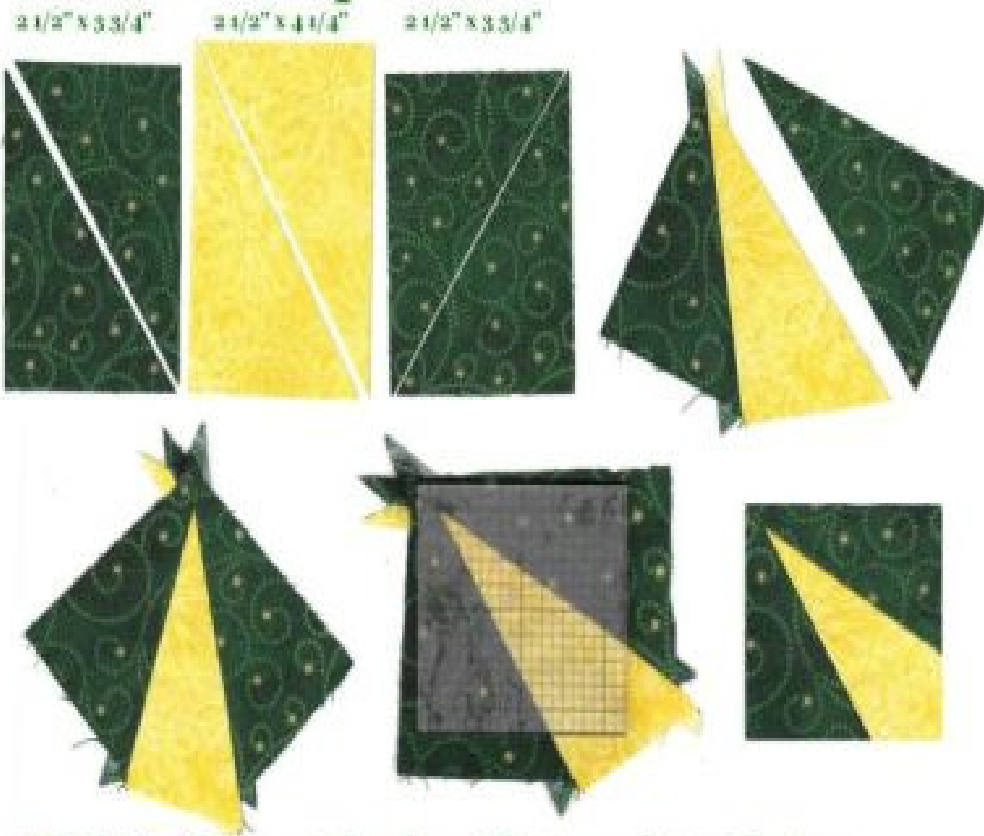

**4<sup>th</sup> step**

Sew all of the 4 patches into rows  
According to the layout above

# My Shortcut Blocks

You'll need to substitute your fabrics in place of my green and yellow. Make sure you use the colors in the places shown in the quilt block layout above.

## Star Point Squares

Match the first two triangles at the top point so the tops match. Match the second green triangle top point with the first green triangle not the yellow one.

Cutting the triangles this way will give you enough to make 2 Star Point Squares

## STAR POINT BLOCK

1. Sew 1 green and 1 yellow together as shown
2. Cut the yellow fabric with a 30 degree angle
3. Sew on the third fabric and iron the seams open
4. Once you've done that then center your template on your joined fabric on a cutting mat
5. MAKE SURE you place the template so the 1/4" lines on the template cross on the point where your fabrics meet at the top. This leaves a 1/4" seam allowance above your point
6. Hold it steady as you cut around the edges of the template with a rotary cutter
7. Or you can trace around the edges of the template and cut out with scissors.
8. Cut as accurately as possible as it will make joining blocks easier later on.
9. The size rectangles you need is notated in the illustration below.

The size of your template will dictate the size of your quilt block. I used a 2 1/2" template to make a 12 1/2" quilt block. If you make the template larger or smaller you will get a diff size of quilt block.

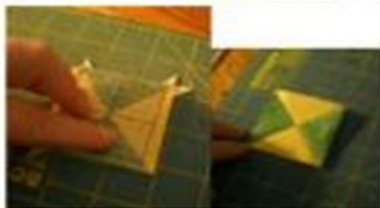

Omnigrid makes a 2 1/2" template and can be found at Hobby Lobby or online.
